Sahal Muhammed C N

Flutter Developer | Mobile Application Developer

sahalmuhammedcn@gmail.com • +91 8592020391 • Calicut, Kerala (Open to Relocate) • sahaldeveloper.vercel.app • linkedin.com/in/sahalmuhammedcn

Nationality: Indian | **Visa Status:** Available on a visit visa | **Languages:** English (Fluent), Malayalam (Native), Tamil (Intermediate), Hindi (Basic)

PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience building and shipping production mobile applications using **Flutter and Dart**. Contributed to live apps on Google Play and the App Store, including products with 10K+ active downloads, as well as an international multi-service ride and logistics mobility platform. Skilled in **Figma-to-Flutter UI** implementation, **REST API integration**, **BLoC state management**, and **DDD architecture**. Experienced in real-time streaming, push notifications, and payment gateway workflows including **AZUL and PayPal**.

PROFESSIONAL EXPERIENCE

Associate Software Engineer Feb 2026 – Present

Lilac Infotech, Calicut, Kerala, India

- Engineered scalable cross-platform features across multiple **production Flutter applications** for international clients.
- Architected clean UI from Figma designs, integrated REST APIs, and managed complex asynchronous state using **BLoC and DDD architecture**.
- Integrated **Pusher** for real-time live events, **Agora** for interactive audio/video calling, and **AZUL & PayPal** payment flows.
- Migrated push notifications from OneSignal to pure **Firebase Cloud Messaging (FCM)** for a live application with 10K+ downloads.
- Refactored UI and core business logic, diagnosed production exceptions via **Firebase Crashlytics**, and boosted overall runtime performance.
- Collaborated closely with cross-functional teams, technical leads, and backend engineers to deploy robust feature updates.

Flutter Developer Intern Apr 2025 – Sep 2025

Tomercon Developers

- Developed modular Flutter screens, integrated RESTful endpoints, and configured secure authentication using **Firebase & Cloud Firestore**.
- Utilized **Provider** pattern while collaborating with senior engineers on rapid feature releases and production bug fixes.

Flutter Developer Trainee Jul 2024 – Dec 2024

Haris & Co. Academy (HACA)

- Completed an intensive Flutter and Dart curriculum, successfully designing and delivering a full **Student Management System** capstone application.

EDUCATION

Bachelor of Commerce (B.Com), Computer Applications Aug 2020 – Jun 2024

University of Calicut, India

TECHNICAL SKILLS

Mobile: Flutter, Dart, Figma-to-Flutter UI implementation

State Management: BLoC, Provider, Riverpod

Architecture: Domain-Driven Design (DDD), Clean Architecture, Reusable UI Patterns

APIs & Services: REST APIs, JSON Parsing, Error Handling, Firebase Auth, Cloud Firestore, Firebase Cloud Messaging (FCM)

Real-Time & SDKs: Pusher (WebSockets), Agora SDK (Audio & Video Calling)

Payments: AZUL, PayPal, Razorpay

Mobile Features: Localization (Multi-language), Deep Linking, Background Location Tracking, PDF Generation/Sharing, Skeletonizer/Shimmer states

Tools: Git, GitHub, Postman, CI/CD Collaboration, VS Code, Android Studio

SELECTED PROJECTS

D-Libre – Multi-Service Mobility & Logistics Platform (Dominican Republic) Live on Google Play & App Store

Flutter, Dart, BLoC, DDD Architecture, Pusher, AZUL Gateway, PayPal

- Architected and built core modules for an international on-demand mobility platform featuring cab booking with live meter and fixed fare pricing, real-time driver-passenger bidding, motorcycle taxi, and specialized pet taxi services.
- Engineered complete parcel delivery and motorbike courier workflows with background live coordinate tracking and instant ride receipts.
- Integrated **Pusher real-time events** for driver-rider sync, combined **AZUL & PayPal** payment processing, and established deep linking and dynamic PDF generation/sharing.

Action Club – Community Fitness Platform 10K+ Downloads • 4.4★ Rating

Flutter, Firebase Cloud Messaging (FCM), Localization, Provider

- Migrated mission-critical push notification infrastructure from OneSignal to pure **Firebase Cloud Messaging (FCM)**, optimizing delivery speed and payload control.
- Implemented clean dynamic multi-language localization supporting **4 international languages**, enhancing regional user accessibility.
- Refactored UI components and centralized application state management as commercial product requirements scaled.

Imprints Academy – Learning Management App 5K+ Downloads • 4.9★ Rating

Flutter, REST APIs, FCM, Razorpay, Skeletonizer

- Integrated targeted FCM push notification flows and engineered polished UI transitions utilizing **Skeletonizer shimmer loading states** for improved perceived performance.
- Diagnosed and corrected payment verification edge cases by redesigning API response handlers and gateway verification pipelines.

Foodmine – Multi-Tenant Food & Grocery Delivery Product Production Grade

Flutter (Multi-App Suite), Pusher, FCM, Geolocation, REST APIs

- Engineered an ecosystem consisting of 3 distinct applications: **Customer App, Vendor App, and Delivery Partner App** supporting restaurant dishes and fresh grocery items (meat, fish, produce).
- Supported flexible fulfillment models including dine-in reservations, self-pickup, and doorstep delivery.
- Implemented WebSocket updates via Pusher, FCM notifications, and background location services for live driver tracking.

Stethzcope – Telemedicine & Healthcare App Flutter • Agora SDK Integration

Flutter, Agora WebRTC, REST APIs

- Reworked and upgraded legacy Agora RTC SDK implementation, successfully restoring stable low-latency audio and video consultation calls between physicians and patients.

Solo Gadget Mart & Lume Jewellery Full-Stack & Web Projects

Next.js, Supabase, Flutter Web, Firebase Firestore, Razorpay

- **Solo Gadget Mart:** Built a full-stack e-commerce web platform with admin dashboard, real-time WebSocket order notifications, Razorpay checkout, and shared cart sync.
- **Lume Jewellery:** Developed a responsive Flutter Web e-commerce portal with transactional Cloud Firestore inventory management and seamless online payments.
